Please mention in the 'Accommodation' section of the application form that you want to apply for a room in a student residence.

As the number of room is limited, we cannot guarantee to meet all the accommodation requests.

PRIVATE ACCOMMODATION

Searching for a private housing from outside the country can be difficult. You won't be able to visit apartments and make fully informed decisions. It may also be difficult, from a distance, to persuade a property owner to let you sign a rental contract or convince him that you have someone who will guarantee payment of your rent. Students must have a guarantor living in France or in another European country. If you do not have a guarantor, you may have to pay a year's rent in advance.

For these reasons, we strongly recommend you to apply for accommodation in a hall of residence.

SHARE HOUSE

You can choose to share a flat with 2 or 3 students in town. You may find an accommodation further from the school but closer to the city center. Be aware that you will have more expenses for electricity/water bills. You will also have to pay a local tax called "taxe d'habitation" (which is not the case in a public hall of residence).
